Reference: Bayou Cove Control Building

Dear Mr. Moore,

I wanted to write and express my congratulations and appreciation for completing the Bayou Cove Control Building in a time frame that was felt to be difficult, if not impossible.

Moore performed this critical work without sacrificing safety or quality in the effort to meet a very tight schedule. The safety on this project was exemplary without any accidents or safety related incidents. We are now working in the building and the quality and workmanship is excellent.

Your personnel were cooperative and professional in all aspects of the performance of the work. Our Construction Management Team was very satisfied with and appreciative of the efforts that Moore put forth. NRG looks forward to future opportunities with Moore Construction.

Regards,

A handwritten signature in blue ink that reads "Dirk Perrault".
