Subject: Re: Testimony At Exxon

I had the pleasure of working with Moore Construction in early 2010 on an office/conference room remodel. It was great working with such a safety and quality conscious work force. They were professional in all duties with customer focus and attention to detail important components of their service. They performed safely and courteously in an environment constantly under scrutiny due to the location of the work. Moore Construction pricing was fair and they stand behind their work after the job is done.

I would strongly recommend their services to anyone.
